

A program for Komatsu customers  
of PC33E-6 electric mini excavator

### **An new industry standard, with exclusive benefits**

E-Support is a support program that comes as standard with your new Komatsu PC33E-6 electric mini excavator. It covers three elements: Factory-scheduled maintenance, performed with Komatsu genuine parts by Komatsu trained technician, and additional warranty on the machine and component warranty for selected electric powertrain components. Please contact your local Komatsu distributor for terms and condition.

### **Easy maintenance**

The PC33E-6 provides an environmentally friendly solution with local zero emissions and is optimal for indoor use or to do outside work outside of standard hours. A tilt-up floor provides easier service access and reduced daily check and periodical maintenance items, including an air-cooled maintenance-free electric motor and inverter.

### **Enhance E-Support with extended warranty options**

For continued protection from unplanned expenses and impacts on cash flow, take advantage of our extended warranty programs. Select your coverage from four different programs available in many combinations of years/ hours.

# Keep your new Komatsu machine up and running – and your cost of ownership down
